

BE CAREFUL WHAT YOU PRAY FOR Paul Kelly

Bm

Be careful what you pray for, You just might get it

F#7

Be careful what you pray for, You might regret it

Bm

You get your hands on that glittering prize

Em

Now everybody's coming at you from every side

Bm

Be careful what you pray for, You just might get it

Be careful what you want now, You might be sorry

Be careful what you want now, You might be sorry

You finally make it to your place in the sun

You stop and look around but you friends with no-one

Be careful what you want now, You might be sorry

A

Bm

A

Go ahead, Like a moth to a flame. Go ahead now,

Be careful what you dream of, dreams come true

Be careful what you dream of, they can turn on you

Revenge is a dish they say best tasted cold

But revenge digs two graves. Makes a young person old

Be careful what you dream of, it might come true
